

STAFF REPORT

Application: Variance to Make an Addition to a Non-Conforming Structure

Applicant: Anna Zwirn

Agenda Item: 3(a)

Staff Recommendation: At the February meeting, Greg Frazee represented the applicant and indicated that he would be discussing the Board of Adjustment's feedback with the applicant and making a decision on how to proceed. He indicated that they would make submittals based on their decision.

We have not heard from the applicant or Mr. Frazee since the meeting. It is our assumption that they are still examining their options. We have sent a letter to Mr. Frazee and asked they submit their materials by May 21, 2008 or the application will be denied at the June 4, 2008 meeting. There have been no submittals since this letter.

We recommend that the application be denied.
